Continuing Learning

Keeping us up to date is John Riach, teaching us all about our technology and how it works!

We're lucky to have him with us most Monday's at 1:30pm. Including his next session the coming Monday the 05th of May at 1:30pm

Watch Out for Spam

This is a general warning, there are a lot of spam emails doing the rounds at the moment, many providers have their own spam reporting service but when in doubt you can contact Report@phishing.gov.uk with the information and get an immediate automated response.

Anything can be reported, websites, phone numbers, text messages, and emails.

Remember do not give out private information, reply to text messages, download attachments or click on any links in emails if you're not sure they're genuine.

Poppy Progress

We are making a great start to our poppy project, at last count we had just over 200 poppies.

The number is amazing and we can't wait to see it grow through the year, up to our time to piece together our display!

We're so thrilled to have so many hands helping us make this work.

A Look Back

We had some real fun last month, from the start of our glass painting classes with Abbeycrafts, an enlightening presentation on the history of the Wick Lifeboats station, music from Frankie Sutherland. The highlight for the month, to top off the Easter week we had the Lybster Animal Farm Park along with their many creatures, we were joined by some of the local kids who quite enjoyed meeting Sid the snake and his friends
